

## PACIFIC ADVENTURE CANOPY + KAYAK

This trip will guarantee a full range of excitement while in total contact with one of the few transitional forests remaining between the Tropical Dry Forest and the Tropical Humid Forest in Costa Rica. The complete **Canopy Tour** takes approximately 3 hours and consists of gliding along several platforms connected by steel cables, suspended in the canopy of the trees. The canopy ends on a visit to Playa Blanca where you will enjoy, relax and spend some free time while being at the beach and having lunch.

After flying over the tree top will continue on a wet experience with the **Sea Kayak & Snorkelling** at Playa Agujas. A great combination to take advantage of one of Costa Rica's most beautiful features: the Ocean. After a short drive to a secluded beach and some brief instruction we're off. Watch frigate birds and pelicans glide overhead as you paddle along the spectacular coastline. Land on a deserted beach where you will have the opportunity to do some snorkelling and explore the reefs looking for colourful tropical fish.

**What to bring:** Comfortable shoes, sun block, swimsuit, sandals, towel, camera & hat. **Length of tour:** Full day. **Inclusions:** air-conditioned transportation, canopy and kayaks equipment, lunch and bilingual experienced guide.

**PRICE PER PERSON**

**\$ 99 USD**
